

2010 Aetna Specialty CareRxSM Drug List

Effective 4/1/2010

Convenient access to specialty medications and support every step of the way

What you should know to get started

What is Aetna Specialty CareRx?

Aetna Specialty CareRx is a pharmacy benefit plan that covers certain specialty drugs. You may get your first fill of these drugs at a retail pharmacy. To achieve best coverage, all refills must come from an in-network specialty pharmacy, like Aetna Specialty Pharmacy®. Please review your plan documents for more about the requirements and limitations of your pharmacy plan.

What is a specialty drug?

Specialty drugs treat complex, chronic diseases. Because of the complex therapy needed, a pharmacist or nurse should check in with you often during your treatment. These drugs may include self-injectable, infused or select oral medications. They may need to be refrigerated. They are often expensive and may not be available at retail pharmacies.

Aetna Specialty CareRx is not available under our HMO full risk plans in California.

Health benefits and health insurance plans are offered, underwritten or administered by Aetna Health Inc., Aetna Health of the Carolinas Inc., Aetna Health Insurance Company of New York, Aetna Health Insurance Company and/or Aetna Life Insurance Company (Aetna). In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products.

In accordance with state law, California HMO members who receive coverage for drugs added to the Precertification or Step-Therapy Lists will continue to have those drugs covered, for as long as the treating doctor continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's condition. Nothing in this material shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this material be construed to prohibit generic drug substitutions.

Precertification determines whether a service, procedure, drug or medical device meets our clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured HMO and PPO members. This material is for information only and is not an offer or invitation to contract. An application must be completed to obtain coverage. Rates and benefits vary by location.

Health benefits and health insurance plans contain exclusions and limitations. Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage.

Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services.

Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's Preferred Drug List. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions.

Aetna Specialty Pharmacy refers to Aetna Specialty Pharmacy, LLC, a licensed pharmacy subsidiary of Aetna Inc. that operates through specialty pharmacy prescription fulfillment. The charges that Aetna negotiates with Aetna Specialty Pharmacy may be higher than the cost they pay for the drugs and the cost of the specialty pharmacy fulfillment services they provide. For these purposes, the pharmacies' cost of purchasing drugs takes into account discounts, credits and other amounts that they may receive from wholesalers, manufacturers, suppliers and distributors.

Policy forms issued in Oklahoma include: HMO/OK COC-5 09/07, HMO/OK GA-3 11/01, HMO OK POS RIDER 08/07, GR-23 and/or GR-29/GR-29N.

Information is believed to be accurate as of the production date; however, it is subject to change. For more information about Aetna plans, refer to www.aetna.com.
