

North Coast of *Haiti* Mission - NCHM

Since our founding in 2008, the North Coast Haiti Mission (NCHM) has had a clear focus on improving education within the Methodist schools of the Cap-Haitien Circuit of the Eglise Methodiste d'Haiti. We work closely with the Circuit Superintendent, local school staff and administrators to provide critical, targeted, and effective assistance.

Currently, NCHM and our partner congregations are focusing on

1. identifying and awarding two new scholarship students
2. purchasing books and supplies for students
3. investigating the possibility of installing electricity in our Dondon school
4. constructing libraries at Dondon and Latannarie schools.

We have also partnered with Church of the Saviour and have raised the money to build a new roof for the Methodist Church in Dondon.

Life in Haiti continues to be a struggle with fuel and food prices on the rise and serious political unrest and pandemic concerns negatively impacting our students and their schooling. Please PRAY for these children and their families. They need help for today and hope for tomorrow. Your TALENTS are needed. We are looking for those with a heart for mission in Haiti who might lead their congregations to partner with NCHM to adopt a school within Haiti. We also need someone who can provide some IT/Web support for us as well as someone experienced in fundraising.

Please consider joining our Team for one of our frequent visits to Haiti to see for yourself how God might be calling you.
